Work Experience

Gracenote, Halifax— *Software Developer 1*   SEPTEMBER 2022 - May 2024

- Developed and maintained browser-based applications and supporting infrastructure for the input and verification of sports metadata using javascript, java, hibernate, angularJs, typescript, and NodeJS, ensuring accurate distribution to major media clients.
- Provided onboarding and training for new team members, facilitating a smooth transition as the team structure evolved due to organizational changes.
- Collaborated on the development of NBC's Olympic web pages, delivering both visually engaging designs and robust underlying functionality to ensure a seamless and responsive user experience.
- Maintained and enhanced a Springboot Java-based application responsible for managing television channel data used by client platforms.

Gracenote, Halifax— *Quality Analyst*   AUGUST 2021 - SEPTEMBER 2022

- Performed final quality assurance reviews on sports metadata for major North American leagues, including the **NBA, NFL, MLB, and NHL**, prior to client distribution.
- Verified and published data such as rosters, box scores, schedules, rankings, and injury reports, ensuring accuracy and consistency across all outputs.
- Supported the delivery of high-quality, reliable content to leading clients in the media and broadcasting industry.
